IELTS

What is the IELTS?

IELTS (International English Language Testing System) is a standardised English language test that is used to determine proficiency for foreign speakers who want to live, work and study in an English-speaking environment. The IELTS is recognised by over 9,000 institutions worldwide, as proof of competent English language skills.

Why should I take the IELTS? Study

Many English speaking universities require international students to take the IELTS as a condition of their initial application and acceptance. If you're looking to do an undergraduate or postgraduate course that is taught in English

It's widely available IDP

You can take the IELTS accredited offices around the world, including London. But of course, in order to take the test and get the score that you need, a preparation course is essential

It covers American and British English

As we know, there are some differences between American and British English and depending on your reasons for taking an English language test, you may need to know one more than the other. Thankfully, the IELTS test covers both American and British English, so no matter what environment you use your English in, the English you learn for your IELTS test will be relevant.

EXCELLENCE

EDUCATION & VISA

- Selection of Course, Country and Collage/University options available according to your academic Documents

SPOKEN ENGLISH

- **Basic Grammar to Advance Level**
 - **Sentence Structure and Formation**
 - **Group Discussion**
 - **Personal Speaking Interviews**
 - **Communication Skills**
 - **Letter Writing**
- **English is a global language**

English is the most commonly spoken language in the world. One out of five people can speak or at least understand English!
 - **With English, you can study all over the world**

Since English is spoken in so many different countries there are thousands of schools and universities around the world that offer programmes in English. If you speak good academic English, there're lots of opportunities for you to find an appropriate school and course to suit your needs.
 - **Studying English can help you get a job**

English is the language of science, aviation, computers, diplomacy, and tourism. Knowing English increases your chances of getting a good job in a multinational company within your home country or of finding work abroad.

◆ **Artificial intelligence**

Artificial Intelligence (AI) scoring means your English language skills are assessed by an algorithm that mimics how human markers would score, based on a substantial number of responses. What this means is that you're graded only on what you say.

◆ **Unbiased scoring**

When you take the PTE test, what you say is graded by AI against thousands of previous responses. What this means is that you're graded only on what you say.

◆ **Flexible testing & fast Results**

Thanks to the use of market leading technology, PTE offers all test takers incredible flexibility. Test taker results are typically within just 48 hours of taking the test and furthermore, PTE offers global testing in more than 350 test centers in over 70 countries.

◆ **Unlimited acceptance for study & migration applications**

PTE is accepted for study applications by thousands of academic programs around the world. It is also approved for all UK, Australian and New Zealand student visa and migration applications.

French

◆ **Second International Language In The World And Widly Spoken In Canada**

More than 300 million people speak French on the five continents.

French is the second most widely learned foreign language after English

◆ **Excellence Carrier Opportunities And Job Prospectus**

The ability to speak French and English is an advantage on the international job market. A knowledge of French opens the doors of French companies in French-speaking parts of the world.

◆ **Language of Higher Education**

Speaking French opens up opportunities to study at renowned French universities and business schools, ranked among the top higher education institutions in Europe and the world.

◆ **Language of International Relations**

French is both a working language and an official language of the United Nations.
